About

Born in 2008 out of Søren Juellund's Halsnaes breeding program in Denmark, Njord Halsnaes was given premium status in 2012. Two years later, this beautiful red dun Norwegian Fjord stallion received a premium status in Alsfeld, Germany. As one of the most frequented European stallions with at least 85 progeny to his name, Njord has dozens of sought-after offspring all over Europe.

In 2019, Jenny Barnes imported Njord to Footnote Farm in Canada where she trained him for collection. In 2022, Njord is making his final migration to the United States in collaborative ownership between Footnote Farm, Sunnyside Farms and Frontier Fjords.

Njord is of fine European lineage by Norsk Rånn x Denna Halsnaes (Pikant Halsnaes). He has an exceptional mind paired with a lovely calm and gentle nature, true to Fjord character. He has outstanding body and movement which allows him to excel at any discipline. We're excited to put him on the modern map for Fjord Breeding.

Njord Halsnaes is available for fresh, frozen and live cover service in Montana, Oregon and Arizona at varied times of the year. Please inquire for location, pricing, contracts and booking.

Available by private treaty to approved mares only.
